

We take care
of the planet... *with you*

CAAE has expert auditors specializing in key areas: **Doñana, Albufera, the Ebro Delta, the Costa Tropical**, etc. We conduct specific audits for all of them, including legal land use.

A new and specific standard

CAAE standard for legal, sustainable and efficient water use **offers the highest guarantees to the international consumer** regarding the origin of the water used.

This standard verifies that agricultural products have been grown with water of legal origin, with efficient and sustainable management.

What *benefits* does it provide?

- ✓ Increased control over water resources
- ✓ Cost reduction
- ✓ Access to new markets that are more aware of sustainability.
- ✓ Guarantees for consumers
- ✓ Protection of the surrounding, the Environment, and Biodiversity
